6	CLOSING DECLARATION	51

7 I, Franciscus Dylan Rosario, am the plaintiff in this action. I represent myself. I make this declara-
8 tion from my own knowledge of what I saw, filed, received, or read, except where I say a fact is on
9 information and belief or is the contents of a paper or transcript I have read. Where I quote a paper
10 or transcript, I identify it as such. I do not by this declaration ask any court to decide an appeal on
11 the merits. Statutes named in an item are my identification of the rule as it appears in the papers I
12 have read, not a finding by this Court.

13 TX means a File & Serve Express transaction number when I have one. “TX none” means the act
14 was a letter, deposition, hearing, email, claim-file paper, or an e-filing whose transaction number
15 is not yet pinned. “TX none” is not proof that a paper was not filed.

16 Items 023A, 047, 050, and 071 carry a verification hold. Those quotations are not offered as
17 certified-page testimony until the clerk’s transcript or reporter’s transcript page, or the register of
18 actions entry, is re-pinned.

19 **PART I. THE SCENE: FEBRUARY 4, 2021**

20 **001. 2021-02-04 | TX none (SFPD Report 210079556) | Subhi Abdelhalim**

21 The insured driver struck a person and then spent the next five years denying contact that his own
22 911 call admitted.

23 **What occurred.** White Ford Transit van, southbound Fifth Street turning west onto Tehama,
24 San Francisco, approximately 3:00 p.m.; plaintiff struck. SFPD Report No. 210079556, Officer

1 Fernandez #1118.

2 **002. 2021-02-04 | TX none (911 audio; later authenticated RT8) | Abdelhalim**

3 The defendant's own voice admitted the impact he later denied to police, in deposition, and at trial.

4 **What occurred.** On the 911 recording (later authenticated at trial, RT8) the driver says in sub-
5 stance "I barely hit him with anything" and "BOOM! I just hit him. HIT HIM. There was barely
6 anything."

7 **003. 2021-02-04 | TX none (911 / SFPD Report 210079556) | Abdelhalim**

8 The driver left the injured person, even briefly, before returning.

9 **What occurred.** The driver moved the van away from the injured plaintiff and returned only after
10 a passerby's 911 call reported "a hit and run ... nobody helping him." At deposition he denied
11 leaving ("I never left") and explained the move as "I pulled my vehicle on the right to the street,
12 so – I don't want to block nobody's traffic" (Depo. 17:22-23); see item 026A on why the traffic
13 explanation fails. As I identify the rule from the papers I have read: hit-and-run duty (Veh. Code
14 20001) as pleaded.

15 **004. 2021-02-04 | TX none (scene conduct; later pleaded) | Abdelhalim**

16 After returning, the driver offered the injured person pocket money on the pavement.

17 **What occurred.** After returning, the driver offered the injured plaintiff a five-dollar bill.

18 **005. 2021-02-04 | TX none (SFPD Report 210079556) | Abdelhalim**

19 Minutes after telling 911 he hit the man, the driver told the investigating officer he felt no impact,
20 and the police report adopted that account.

21 **What occurred.** Per the Traffic Collision Report, the driver told Officer Fernandez he checked his
22 mirror, completed the turn, did not feel any impact, did not see the plaintiff, and that the van had no
23 damage. The report then assigned fault to plaintiff for riding against traffic (Veh. Code 21651(b)
24 framing). As I identify the rule from the papers I have read: false or misleading statement to a
25 tribunal, or failure to correct one (CRPC 3.3; Bus. & Prof. Code 6068(d)); false-report risk label
26 only (Penal Code 148.5); not a criminal charge.

1 **006. 2021-02-04 | TX none (Claim 1004-09-1054 opened) | Abdelhalim**

2 The claim file was seeded from the start with the insured's version alone.

3 **What occurred.** The driver testified he "called AAA right away to claim" and received a claim
4 number; CSAA opened Claim No. 1004-09-1054 on the insured's account.

5 **PART II. THE INSURER'S TWENTY-ONE DAYS: FEBRUARY 4 TO**
6 **FEBRUARY 25, 2021, AND THE COVER THAT FOLLOWED**

7 **007. 2021-02-04 to 2021-02-25 | TX none (Claim 1004-09-1054) | CSAA claims personnel**

8 The insurer decided fault without speaking to the injured party.

9 **What occurred.** CSAA did not contact plaintiff for his account before denying liability. As I
10 identify the rule from the papers I have read: investigation / settlement standard of Ins. Code
11 790.03(h) and 10 CCR 2695.7 (standard of care).

12 **008. 2021-02-04 to 2021-02-25 | TX none (Claim 1004-09-1054) | CSAA**

13 The insurer did not even lock down its own insured's story before adopting it.

14 **What occurred.** As pleaded, CSAA did not take a recorded or under-oath statement from Abdel-
15 halim; the insured himself was unsure at deposition whether he gave one. As I identify the rule
16 from the papers I have read: investigation / settlement standard of Ins. Code 790.03(h) and 10
17 CCR 2695.7 (standard of care).

18 **009. 2021-02-04 to 2021-02-25 | TX none (Claim 1004-09-1054) | CSAA**

19 The single most important piece of liability evidence sat one public-records request away and
20 CSAA never asked for it.

21 **What occurred.** No request to SFPD or the Department of Emergency Management for the
22 911 recording that contained the insured's admission. Plaintiff's counsel later obtained the same
23 recording by routine request on May 12, 2021. As I identify the rule from the papers I have read:
24 investigation / settlement standard of Ins. Code 790.03(h) and 10 CCR 2695.7 (standard of care).

1 **010. 2021-02-04 to 2021-02-25 | TX none (Claim 1004-09-1054) | CSAA**

2 An eyewitness on police video contradicted the insured and the insurer never looked.

3 **What occurred.** No BWC in the claim file, including Officer Thompson's footage of an eyewitness
4 saying "The man in the van hit the guy." As I identify the rule from the papers I have read:
5 investigation / settlement standard of Ins. Code 790.03(h) and 10 CCR 2695.7 (standard of care).

6 **011. 2021-02-04 to 2021-02-25 | TX none (Claim 1004-09-1054) | CSAA**

7 The insurer skipped the index that would have led it to every other record.

8 **What occurred.** No dispatch (CAD) pull despite the report's linkage to dispatch incident numbers.
9 As I identify the rule from the papers I have read: investigation / settlement standard of Ins. Code
10 790.03(h) and 10 CCR 2695.7 (standard of care).

11 **012. 2021-02-04 to 2021-02-25 | TX none (Claim 1004-09-1054) | CSAA**

12 Every ordinary step of a liability investigation was skipped.

13 **What occurred.** As pleaded in the RFA set, none of these steps were taken before denial. As
14 I identify the rule from the papers I have read: investigation / settlement standard of Ins. Code
15 790.03(h) and 10 CCR 2695.7 (standard of care).

16 **013. 2021-02 (date not OCR-legible) | TX none (Metro Reporting Bureau vendor order) |**
17 **CSAA / AAA (attn. Tonya McConnaughay)**

18 The insurer knew where the evidence was indexed and stopped at the summary that favored its
19 insured.

20 **What occurred.** CSAA ordered the police report through a vendor, showing awareness of Report
21 No. 210079556, but never pulled the 911, BWC, or CAD that the report indexed. As I identify the
22 rule from the papers I have read: investigation / settlement standard of Ins. Code 790.03(h) and 10
23 CCR 2695.7 (standard of care).

24 **014. 2021-02-25 | TX none (Claim 1004-09-1054 zero disposition) | CSAA**

25 CSAA closed the file at zero dollars before the file contained anything to evaluate.

1 **What occurred.** Claim closed twenty-one days after opening on what the Contra Costa com-
2 plaint calls a pre-determined administrative zero-disposition workflow run on an empty evidentiary
3 repository. As I identify the rule from the papers I have read: investigation / settlement standard of
4 Ins. Code 790.03(h) and 10 CCR 2695.7 (standard of care).

5 **015. 2021-02-25 | TX none (Claim 1004-09-1054 denial letter) | Sarah Rash, Claims**

6 **Representative, CSAA**

7 The letter represented a completed, careful investigation that had never gathered the 911 call, the
8 video, or the dispatch record.

9 **What occurred.** Letter to plaintiff, Claim 1004-09-1054: “We have concluded our investigation of
10 your claim. Based on our investigation, and after carefully reviewing the facts and circumstances
11 of your claim, we have concluded that our insured is not liable for your damages resulting from
12 this loss. Therefore we must decline your claim. In addition, we dispute your right to recover
13 the amount of damages you have claimed.” As I identify the rule from the papers I have read:
14 investigation / settlement standard of Ins. Code 790.03(h) and 10 CCR 2695.7 (standard of care);
15 deceit / concealment (Civ. Code 1709, 1710).

16 **016. 2021-02-25 | TX none (Claim 1004-09-1054 denial letter) | Rash / CSAA**

17 The letter marketed finality to a layperson while quietly hedging that it had not looked at every-
18 thing.

19 **What occurred.** The same letter invites “additional information,” while declaring the investigation
20 concluded and the insured not liable. As I identify the rule from the papers I have read: investiga-
21 tion / settlement standard of Ins. Code 790.03(h) and 10 CCR 2695.7 (standard of care); deceit /
22 concealment (Civ. Code 1709, 1710).

23 **017. 2021-02-25 | TX none (Claim 1004-09-1054 denial letter) | CSAA**

24 What the letter omitted was the truth about how little it rested on.

25 **What occurred.** The letter did not disclose that no 911, BWC, or CAD had been requested or
26 reviewed, and listed no facts actually reviewed. As I identify the rule from the papers I have read:

1 investigation / settlement standard of Ins. Code 790.03(h) and 10 CCR 2695.7 (standard of care);
2 deceit / concealment (Civ. Code 1709, 1710).

3 **018. 2021-02-25 | TX none (Claim 1004-09-1054 denial letter) | CSAA**

4 The insurer paid nothing on a claim its own insured had confessed to on tape.

5 **What occurred.** Zero-dollar disposition with no offer, though the insured's own 911 admission
6 made liability reasonably clear had it been retrieved. As I identify the rule from the papers I have
7 read: investigation / settlement standard of Ins. Code 790.03(h) and 10 CCR 2695.7 (standard of
8 care).

9 **019. 2021-02-25 onward | TX none (Claim 1004-09-1054; continuing) | CSAA**

10 A denial engineered to make the claimant stop looking is a denial engineered to destroy his evi-
11 dence by lapse of time.

12 **What occurred.** Pleaded intent: to make plaintiff believe primary evidence had been evaluated so
13 he would not extract public records within municipal retention windows or press settlement. As I
14 identify the rule from the papers I have read: deceit / concealment (Civ. Code 1709, 1710).

15 **020. 2021-02-25 to 2025-04-16 | TX none (Claim 1004-09-1054; continuing through**
16 **2025-04-16) | CSAA**

17 An insurer that learns its denial letter was hollow has a duty to say so, and CSAA never did.

18 **What occurred.** CSAA never corrected the "concluded investigation" representation; plaintiff
19 pleads he first learned the file was empty on April 16, 2025.

20 **021. 2021-02-25 onward | TX none (Claim 1004-09-1054; continuing) | CSAA**

21 The insurer compelled four years of litigation to prove facts that were sitting in a public-records
22 queue.

23 **What occurred.** The denial pushed plaintiff into a lawsuit to authenticate the 911, BWC, and CAD
24 that CSAA's letter implied had already been considered. As I identify the rule from the papers I
25 have read: investigation / settlement standard of Ins. Code 790.03(h) and 10 CCR 2695.7 (standard

of care).

PART III. THE PERSONAL-INJURY CASE BEFORE TRIAL: JULY 2021 TO DECEMBER 2024

022. 2021-07-27 | TX none (Complaint CGC-21-594102 e-filed 2021-07-27) | Milestone

Plaintiff (then represented by Dolan Law Firm) sues Abdelhalim. The five-page complaint pleads Veh. Code 22107 and 21804(a); the defense later turns this pleading into its Exhibit 500.

What occurred. Plaintiff (then represented by Dolan Law Firm) sues Abdelhalim. The five-page complaint pleads Veh. Code 22107 and 21804(a); the defense later turns this pleading into its Exhibit 500.

023. 2021-09-14 | TX none (Answer e-filed 2021-09-14; CT 1:45-48) | Michael R. Chambers, Carbone, Smith & Koyama

From the first responsive pleading, the defense was the insurer's defense, and it denied contact that the insured had already confessed on tape.

What occurred. Answer to Complaint, dated September 13, 2021, electronically filed September 14, 2021 (CT 1:45-48). Caption block: MICHAEL.CHAMBERS@CSAA.COM. CCP 431.30 general denial of every allegation, including the pleaded Veh. Code 22107 and 21804(a) duties, plus six affirmative defenses. As I identify the rule from the papers I have read: The general denial was filed after CSAA had closed the claim on an empty file (items 007-017) and without retrieving the insured's 911 admission. A denial of liability offered without the investigation 10 CCR 2695.7(d) requires is a false or reckless factual contention under CCP 128.7(b)(3) and CRPC 3.1 as later pleaded.

023A. 2021-09-14 | TX none (Answer e-filed 2021-09-14; CT 1:46 Fifth Affirmative Defense) | Chambers

Verification hold. I do not offer the exact wording of the Fifth Affirmative Defense as certified-page testimony until the certified clerk's transcript page (CT 1:46) is re-pinned. The quotation below is from the extract I have. The Fifth Affirmative Defense alleged a DUI conviction and an

1 insurance violation against me; it did not state the insured's own 911 words.

2 **What occurred.** Fifth Affirmative Defense (CT 1:46 para. 6), filed under Chambers' signature:
3 "Defendant is informed and believes, and thereon alleges, that at the time of the incident which is
4 the subject of this action plaintiff was not insured as required by the state's financial responsibility
5 laws, and/or that plaintiff was driving in violation of Vehicle Code section 23152 and/or 23153 for
6 which violation(s) plaintiff was convicted. Therefore, plaintiff's recovery, if any, must be limited to
7 economic damages pursuant to Civil Code section 3333.4." I have no arrest, charge, or conviction
8 under Veh. Code 23152 or 23153. The allegation is objectively verifiable by a docket, DOJ, or
9 DMV pull and was not supported by any such record. As I identify the rule from the papers I have
10 read: A public court paper accused the injured party of a DUI conviction he does not have, and
11 used that accusation to cut non-economic damages. CRPC 3.1, 3.3(a)(1), 8.4(c); Bus. & Prof. Code
12 6068(d), 6106, 6128(a); CCP 128.7(b)(2)-(3). Civ. Code 3333.4 does not apply to a pedestrian or
13 other person who was not driving a motor vehicle while uninsured or while convicted of DUI.

14 **023B. 2021-09-14 | TX none (Answer e-filed 2021-09-14; CT 1:45-46) | Chambers**

15 Counsel ignored the insurer's own insured (the 911 caller) and filled the Answer with stock de-
16 fenses instead of the recorded admission.

17 **What occurred.** First through Fourth and Sixth defenses: comparative negligence; failure to
18 mitigate; other-persons' fault (Civ. Code 1431.2 / 1432); statutes of limitation including CCP
19 335.1, 337, 338, and 339; and failure to state a cause of action. None of these defenses identifies a
20 fact found in a 911, BWC, or CAD pull, because CSAA had not made those pulls (items 007-014).
21 As I identify the rule from the papers I have read: Affirmative defenses offered without factual
22 investigation after a 21-day zero disposition are the pleading face of the same empty-file denial.
23 CRPC 3.1; CCP 128.7(b)(3); 10 CCR 2695.7(d) as standard of care.

24 **024. 2021-12 | TX none (Form Interrogatory responses Dec 2021; later Ex. 501B) |**

25 **Chambers / CSK**

26 Early, unpolished pro-forma responses were held for four years and used to impeach the injured
27 party on a point that did not decide fault.

1 **What occurred.** Plaintiff's December 2021 Form Interrogatory responses were preserved and
2 later admitted by PSA as Exhibit 501B and argued in closing as scooter admissions.

3 **025. 2022-08-18 | TX none (production at Rosario deposition 2022-08-18) | Chambers / CSK**

4 The defense possessed the silent-witness evidence from August 2022 and never said a word against
5 it until it was convenient to claim it had never arrived.

6 **What occurred.** Dolan Law Firm served the 911 recording and related materials; Chambers
7 attended plaintiff's deposition the same day. No written authenticity challenge followed. Jeremy
8 Jessup later swore to this production under oath (Feb 18, 2025). As I identify the rule from the
9 papers I have read: fairness / suppression (CRPC 3.4).

10 **026. 2022-09-30 | TX none (Abdelhalim deposition 2022-09-30) | Abdelhalim (with**
11 **Chambers present)**

12 The insured swore to a story his own recorded voice contradicted, and his lawyer let it stand.

13 **What occurred.** Sworn (Depo. 25:9-13): "There's no part of my van, no impact, no anything.
14 Because it's – what I telling you that – the police officer, he check my van, completely. ... There is
15 nothing impact my van – being touched." Sworn (Depo. 18:16-19): "The guy claim you hit him. I
16 said, Well, thank God – thank God I'm a good citizen. I don't – I never left." Sworn (Depo. 25:20-
17 21): he told police "there's somebody laying on the sidewalk and he's screaming and yelling. He
18 thinks he got hit." Chambers sat as counsel of record and did not correct the testimony against the
19 911 recording already in the defense file (item 025). As I identify the rule from the papers I have
20 read: A party admission already in counsel's file (Evid. Code 1220) was left standing as sworn
21 no-impact testimony. Penal Code 118 (risk label only); CRPC 3.3(a)(3) (lawyer's duty regarding
22 false evidence).

23 **026A. 2022-09-30 | TX none (Abdelhalim deposition 2022-09-30) | Abdelhalim (with**
24 **Chambers present)**

25 The insured swore that traffic forced him to move his van away from the man he had just struck,
26 on an afternoon when San Francisco's streets were carrying roughly a third less traffic than normal

1 and the same district's traffic enforcement had collapsed by four fifths.

2 **What occurred.** Sworn (Depo. 17, 21-22): traffic forced him to pull the van off the injured man;
3 in the same passage he swore the street was clear. February 2021 public data show city VMT
4 down about a third from 2019, speeds up, and Southern District traffic enforcement down about
5 four fifths. The collision record notes no visual obstruction and that both vehicles were moved
6 before officers arrived. The passerby 911 call reported no vehicle and nobody helping him.

7 **027. 2022-12-09 | TX none (CCP 998 served 2022-12-09; expired unaccepted) | Abdelhalim /**
8 **CSAA (through Chambers)**

9 With a recorded admission of impact in its own file, the insurer let a policy-limits-range offer lapse
10 and forced trial.

11 **What occurred.** Dolan served a \$500,000 statutory offer; it expired unaccepted.

12 **028. 2022-08 to 2023-05 | TX none (file custody 2022-08 to 2023-05) | Chambers / CSK**

13 For about two and a half years the defense held the silent-witness materials without a written
14 authenticity challenge.

15 **What occurred.** Continuous custody of the defense file containing the 911, BWC, and CAD
16 materials, with no written objection to authenticity or provenance. As I identify the rule from the
17 papers I have read: fairness / suppression (CRPC 3.4).

18 **028A. 2023-03-10 | TX none (Fernandez deposition 2023-03-10) | Chambers (examining**
19 **Officer Fernandez)**

20 Defense counsel sat through a police officer confirming four bodycam videos and then handed
21 forward a file from which that fact later disappeared.

22 **What occurred.** Videoconference deposition of Officer David Fernandez. Appearances: Jeremy
23 Jessup for plaintiff; Michael R. Chambers (CSK, michael.chambers@csaa.com) for Abdelhalim.
24 Fernandez testified the bodycam footage "still [is] available," that his video plus "at least three
25 more" existed, and that other officers' cameras likely captured the statements (Fernandez Depo.
26 15:4-22). Chambers thus heard, under oath, that the silent-witness video still existed, eight months

1 after Dolan had already produced 911 / BWC / CAD to him (item 025). Successor counsel later
2 told the court they had “no idea where this 911 call . . . came from” (item 036). As I identify the
3 rule from the papers I have read: Knowledge of existing BWC, combined with later “unknown
4 origin” motions, is the knowledge element for CRPC 3.3(a)(1) and Bus. & Prof. Code 6068(d)
5 as later pleaded against the successor firm; Chambers’ duty was to keep the file accurate (CRPC
6 1.16(d), 3.4(a)).

7 **029. 2023-05-04 | TX 69953800 (Substitution of Attorney) | Chambers / CSK to PSA**
8 **(Substitution Tx 69953800)**

9 A file handoff that strips out what the other side already produced is how a lie gets laundered into
10 ignorance.

11 **What occurred.** Substitution of attorney; plaintiff pleads the production history of the silent-
12 witness materials was not conveyed, manufacturing the successor firm’s later “news to me.” As I
13 identify the rule from the papers I have read: false or misleading statement to a tribunal, or failure
14 to correct one (CRPC 3.3; Bus. & Prof. Code 6068(d)); deceit toward the court (Bus. & Prof. Code
15 6128(a) as pleaded); fairness / suppression (CRPC 3.4).

16 **029A. 2023-03-23 (hearing) / first continuance | TX 77801626 / 77801637 (stipulated ex parte**
17 **to continue trial) | Chambers era into PSA era**

18 The defense used plaintiff’s medical condition as the reason to delay, then used the same medical
19 file as a reason to exclude the injury at trial.

20 **What occurred.** Stipulated ex parte to continue the first trial date. The supporting memorandum
21 states this is “the first continuance of this trial date” and that the parties need more discovery,
22 including “the parties’ respective medical evaluations of Plaintiff,” because “the reasonable value
23 of his future medical care” is “unknown.” Defense later claimed it had never received medical
24 information (items 037A, 046A).

1 **029B. 2023-09-20 / 09-21 | TX none (ex parte e-filed 2023-09-20; order 2023-09-21) | Reyna /**
2 **PSA**

3 A second delay framed as a need for medical discovery, followed by MILs that the medical evi-
4 dence had not been produced.

5 **What occurred.** Notice of Ex Parte Application filed September 20, 2023; order granting Septem-

16 **What occurred.** The same January 17 package that denied receipt of police recordings also denied
17 receipt or usability of medical proof: - MIL 1: exclude all expert or non-retained expert testimony
18 because "Plaintiff has not served a designation" (expert exchange date December 9, 2024, after the
19 September 17 continuance). - MIL 2: preclude any testimony or argument that plaintiff's injuries
20 were caused by defendant; "Plaintiff has already failed to meet his burden in proving causation."
21 - MIL 3: preclude future medical specials because "Plaintiff has failed to provide any admissible
22 evidence that he will even require future medical treatment." - MIL 13: exclude special damages
23 "not identified in discovery" and "documents and other evidence that he has failed to produce to
24 Defendant." - MIL 14: preclude future medical treatment. - MIL 18: preclude past and future earn-
25 ings; "Plaintiff has not produced any admissible evidence" and "has not designated any medical
26 or vocational rehabilitation expert." CSAA's own February 2021 file never pulled medical records

1 (item 012). The 2023-2024 continuance papers had already recited treating physicians, billing
2 records, and medical evaluations (items 029A-029B). The “never received medical information”
3 posture is therefore the same empty-investigation fact, restated as a trial exclusion. As I identify
4 the rule from the papers I have read: Using a “not produced” / “no medical evidence” predicate
5 to strip causation and damages after the insurer skipped the medical pull, and after continuance

18 duce any records of treatment by Dr. Rene Gonzalez”; “As of the filing of this motion, Plaintiff
19 has failed to produce any records of treatment by Dr. Rene Gonzalez per the Court’s directive.”
20 The same motion attaches plaintiff’s March email serving other treating records (ER notes and
21 additional treaters). The defense used a single-treater gap to move exclusion of “any and all testi-
22 mony, records and/or opinions.” As I identify the rule from the papers I have read: A categorical
23 exclusion motion built on “no records” while the motion itself attaches other medical records is a
24 misleading statement to the tribunal (CRPC 3.3(a)(1)) if offered as a claim that the defense had no
25 medical file at all.

11 The defense converted its own empty 2021 medical file into a court order that the injured party
12 could not prove he was hurt.

13 **What occurred.** Orders granting MIL 8 (liability insurance) and MIL 19 (April 7); orders granting
14 MIL 2 (causation testimony), MIL 3 (future medical specials), MIL 14 (future medical treatment),
15 and MIL 18 (earnings) on April 10, 2025 (CT chronological index). The medical wall of item
16 037A became the law of the trial. Combined with the 911 / BWC provenance lie (items 035-044),
17 the jury was kept from the impact evidence and from the injury evidence. As I identify the rule

1 were part of the evidence. They simply are not permitted to consider that as evidence in the case,
2 period” (RT11 7:4-9). Nine lines later the court supplied Vehicle Code definitions of “vehicle” and
3 “highway” (RT11 7:16-26). As I identify the rule from the papers I have read: refusal or blockage
4 of the law the jury asked for (CCP 614; Evid. Code 310, 451; CCP 647).

5 **063. 2025-04-23 | TX none (RT11 2025-04-23) | Defense counsel**

6 The defense asked the jury be given Vehicle Code text on the same morning it accepted a ruling
7 that Vehicle Code text was “not part of the evidence.”

8 **What occurred.** By PSA’s own later account, “Defendant’s counsel requested that the definition
9 for ‘highway’ also be included” and Veh. Code 670 and 360 were “submitted to the jury.” As I
10 identify the rule from the papers I have read: refusal or blockage of the law the jury asked for (CCP
11 614; Evid. Code 310, 451; CCP 647).

12 **064. 2025-04-23 | TX none (verdict 2025-04-23; polled RT11 15-16) | Jury**

13 The thinnest possible verdict was obtained on a record from which the defense had removed the
14 confession’s provenance, the eyewitness footage, the medical proof, and the turning statute.

15 **What occurred.** Verdict for defendant on the minimum civil majority; polled (RT11 15-16). This
16 is the verdict the later papers treat as a merits adjudication. It issued after the false non-production
17 MILs (035-044), the medical-exclusion orders (037A, 046A), the one-sided Vehicle Code charge
18 (060), and the refusal to instruct on the statutes the jury named (062). As I identify the rule from
19 the papers I have read: A verdict obtained after the jury was forbidden to consider enacted turning-
20 duty law (CCP 614; Evid. Code 310, 451; CCP 647) and after exclusion orders procured on false
21 provenance statements is the due-process / Soule / Kulchar injury as pleaded. It is not a clean
22 merits finding.

The lawyer who had disclaimed knowledge of his own subpoena signed the paper that made the verdict final.

What occurred. Judgment on verdict entered (CT 6:1689); Notice of Entry filed and served April 29, 2025 (CT 6:1691), signed by Alberto Reyna as I have read it. As I identify the rule from the papers I have read: extrinsic fraud / fraud on the court as pleaded (Kulchar; Modnick).

066. 2025-04-30 | TX 76186261 (Memorandum of Costs) | Abdelhalim / PSA

Having won by keeping the evidence out, the defense billed the injured party seventy-six thousand dollars for the privilege.

What occurred. Cost memorandum filed (Tx 76186261) against a fee-waiver plaintiff.

Navaratnasingham, Reyna, PSA**

The waiver theory that later carried the appeal was first planted by trial counsel in a post-trial brief, without citing CCP 647.

What occurred. The opposition argued CACI 705 “would not have provided the jury with any additional pertinent instruction,” that CACI 400/401 were “essentially the equivalents” of the vehicle instructions, and that “Plaintiff raised no objection to the jury instructions that were provided to the jury during the pre-trial hearing.” As I identify the rule from the papers I have read: omission of controlling authority (CRPC 3.3(a)(2); Bus. & Prof. Code 6068(d)).

068. 2025-05-12 | TX none (Opposition to new trial 2025-05-12) | PSA

The defense called the pro per plaintiff a liar for describing a colloquy the defense itself admits was unreported.

1 **What occurred.** The opposition accused plaintiff of “an outright misstatement of the facts” for
2 saying the vehicle/highway definitions were delivered off record, while conceding defense counsel
3 requested the “highway” definition and that “both sides agreed.” As I identify the rule from the
4 papers I have read: fairness / suppression (CRPC 3.4).

5 **069. 2025-05-12 | TX none (Opposition to new trial 2025-05-12) | PSA**

6 The defense told the post-trial court the confession had been fairly tried without mentioning how
7 it had kept the confession’s origin in doubt.

8 **What occurred.** Argued the jury heard the 911 call and “gave the weight that it did,” treating
9 the admission as fully aired while never disclosing that the same firm’s MILs had delayed and
10 narrowed it on a false provenance story. As I identify the rule from the papers I have read: false
11 or misleading statement to a tribunal, or failure to correct one (CRPC 3.3; Bus. & Prof. Code
12 6068(d)).

15 The defense defended a judgment it knew, since April 16, rested on representations its own lawyer
16 had contradicted in open court.

17 **What occurred.** Defense opposed every post-trial motion; on July 15, 2025 Judge Wong denied
18 all eight in one order. As I identify the rule from the papers I have read: false or misleading
19 statement to a tribunal, or failure to correct one (CRPC 3.3; Bus. & Prof. Code 6068(d)); paper
20 certified without the required factual or legal support (CCP 128.7(b)).

24 until the register of actions entry is confirmed. A cost figure from a fraud-procured judgment
25 became a recurring leverage number in later cases.

26 **What occurred.** Papers I have read state the \$76,308.90 memorandum was “entered” August 8,

2025 and that plaintiff “still owes” it; Porter Scott later cited approximately \$75,000 owed in its 2026 footnotes without a cost order citation (item 108).

The insurer’s own staff counsel took over the appeal while the insurer told two trial courts it had no litigation role in the underlying case.

073A. 2026-08-03 | TX none (Respondent’s Brief A173827 filed 2026-08-03) | Morrissey / CSAA

CSAA staff counsel told a reviewing court that de novo review of RT11 shows a waiver. It does not. The transcript shows a judicial refusal, not a party’s surrender of the instruction.

What occurred. RB 6:8-10: “The propriety of jury instructions is a question of law which is reviewed de novo. (Martinez v. Rite Aid Corp. (2021) 63 Cal.App.5th 958, 969.)” A de novo reading of that same record does not state a waiver of the court’s duty to instruct. What it states is: the jury named Veh. Code 22107 and 21804(a) (Request No. 1); the court refused to instruct and said those sections “were not part of the evidence ... period” (RT11 7:4-9); plaintiff said “Of course we have an objection” (RT11 p. 10); CCP 647 deems a refused instruction excepted to; Lund v. San Joaquin Valley Railroad (2003) 31 Cal.4th 1, 7 confirms no further exception is required. No transcribed party stipulation waives the instruction. Items 074-092 are the sentence-by-sentence overlay that converted that de novo record into a waiver colloquy. As I identify the rule

1 from the papers I have read: CRPC 3.3(a)(1) and CRC 8.204(a)(1)(C): a factual waiver assertion
2 without a record pin; CRPC 3.3(a)(2) for omitting CCP 647 and Lund while arguing forfeiture.

3 **074. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey**

4 A brief about a jury's mid-deliberation question on the law never mentioned the statute that governs
5 jury questions on the law.

6 **What occurred.** The brief never cites Code of Civil Procedure section 614, the statute governing a
7 jury's request for information on a point of law after retiring. As I identify the rule from the papers
8 I have read: omission of controlling authority (CRPC 3.3(a)(2); Bus. & Prof. Code 6068(d));
9 refusal or blockage of the law the jury asked for (CCP 614; Evid. Code 310, 451; CCP 647).

11 Respondent built an entire forfeiture argument while hiding the statute that says no exception was
12 required.

13 **What occurred.** The brief argues waiver from silence without citing CCP 647 (refusal of an
14 instruction is deemed excepted to) or Lund (2003) 31 Cal.4th 1, 7. As I identify the rule from
15 the papers I have read: omission of controlling authority (CRPC 3.3(a)(2); Bus. & Prof. Code
16 6068(d)).

17 **076. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey**

18 The brief argued about law-as-evidence without the two Evidence Code sections that answer the
19 question.

20 **What occurred.** The brief disputes whether statutes are "evidence" without citing the sections that
21 make questions of law the court's province and mandatory judicial notice of California statutes. As
22 I identify the rule from the papers I have read: omission of controlling authority (CRPC 3.3(a)(2);
23 Bus. & Prof. Code 6068(d)).

24 **077. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey**

25 An insurer that controlled the defense and would pay any judgment was disclosed as no one.

26 **What occurred.** The certificate lists no interested party while counsel litigates from CSAA's email

1 domain and CSAA funded the defense.

2 **078. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey**

3 The brief erased the unreported sidebar, the rule 8.137 request, and the sequence of RT11 to man-
4 ufacture silence.

5 **What occurred.** RB 8:8-15: "There is no evidence in the record that at the time question #1 was
6 raised and responded to Appellant made any objection . . . the only evidence in the record is found
7 in RT 11, which documents the discussion regarding jury question #3." As I identify the rule from
8 the papers I have read: false or misleading statement to a tribunal, or failure to correct one (CRPC
9 3.3; Bus. & Prof. Code 6068(d)); record-unsupported appellate fact (CRC 8.204(a)(1)(C)).

10 **079. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey**

11 A one-word answer about jurors accessing statutes on their own was rebranded as agreement that
12 the court need not state the law.

13 **What occurred.** RB 8:17-26 quotes the court asking whether plaintiff objected "to the instruction
14 given in response to Jury request number one" and plaintiff's "No. I have objection to the fact they
15 were accessing or requesting all of them anyways," then treats this as no objection to the refusal
16 to instruct. As I identify the rule from the papers I have read: record-unsupported appellate fact
17 (CRC 8.204(a)(1)(C)).

18 **080. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey**

19 The brief cut the quotation at the comma that changed its meaning.

20 **What occurred.** RB 8:27-30 quotes "I do agree with the first one, the response to number one: You
21 may not consider it because it is not part of the instructions," omitting the next sentence contrasting
22 Request No. 2, and presents it as agreement with the refusal to instruct on Veh. Code 22107 (RB
23 10:18-19). As I identify the rule from the papers I have read: false or misleading statement to a
24 tribunal, or failure to correct one (CRPC 3.3; Bus. & Prof. Code 6068(d)); record-unsupported
25 appellate fact (CRC 8.204(a)(1)(C)).

081. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey

The brief moved the plaintiff's objection to a different question so it could say none was made to the first.

What occurred. RB 8:31-9:4 asserts plaintiff's "Of course we have an objection" (RT11 p. 10) concerned only jury question 3. As I identify the rule from the papers I have read: record-unsupported appellate fact (CRC 8.204(a)(1)(C)).

082. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey

A judge's after-the-fact characterization was offered as if it were the plaintiff's stipulation.

What occurred. RB 9:5-12: "The court on page 10 noted Appellant made no objection when the responses to Jury questions #1 or #2 were being determined." As I identify the rule from the papers I have read: record-unsupported appellate fact (CRC 8.204(a)(1)(C)).

083. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey

Respondent argued a pro per's wrong CACI number forfeited the law the jury itself asked for by statute number.

What occurred. RB 10:13-17: because plaintiff's proposed list had CACI 707 rather than 705, the turning-duty claim is waived (Agarwal, Finn, Metcalf, Gregory). As I identify the rule from the papers I have read: refusal or blockage of the law the jury asked for (CCP 614; Evid. Code 310, 451; CCP 647).

084. 2026-08-03 | TX none (Respondent's Brief A173827 filed 2026-08-03) | Morrissey

An objection to jurors researching law on their own was recast as opposition to the judge stating the law.

What occurred. RB 10:15-21: "it is undisputable that Appellant vehemently opposed giving any instruction on Vehicle Code section 22107 ... Appellant moved for a mistrial when the jury even asked to be instructed ... He admitted in open court that he agreed with the Court's refusal to instruct." As I identify the rule from the papers I have read: false or misleading statement to a tribunal, or failure to correct one (CRPC 3.3; Bus. & Prof. Code 6068(d)); record-unsupported

appellate fact (CRC 8.204(a)(1)(C)).

The brief denied on page 10 what it had conceded on page 6.

What occurred. RB 10:29-30: "There is no evidence in the record that Appellant requested CACI 705, 707, or 710 be given or that such a request was denied." RB 6:21-22 admits "[t]he list requested CACI 707"; AugCT Exh. A (doc. 09580112) lists 707, 710, and the 700-710 range. As I identify the rule from the papers I have read: false or misleading statement to a tribunal, or failure to correct one (CRPC 3.3; Bus. & Prof. Code 6068(d)); record-unsupported appellate fact (CRC 8.204(a)(1)(C)).

Respondent invented a charge-conference agreement out of thin air and asked the court to presume it.

The brief told the appellate court the trial judge never said what the transcript shows him saying.

What occurred. TOC heading says the response "Was Based On The Law Not Being in Evidence" (RB 3:20); body heading says "WAS NOT" (RB 11:28-29); RB 11:31-12:4 calls plaintiff's premise "simply inaccurate" and "wholly unsupported by the record." RT11 7:4-9 records the court saying the sections "were not part of the evidence ... period." As I identify the rule from the papers I have read: false or misleading statement to a tribunal, or failure to correct one (CRPC 3.3; Bus. & Prof. Code 6068(d)); record-unsupported appellate fact (CRC 8.204(a)(1)(C)).

Respondent admitted its own exhibit prompted the jury's question and still defended refusing to answer it.

What occurred. RB 13:29-32 admits the admitted complaint with Veh. Code 22107 "is likely the

source of the jury’s question,” while maintaining the statutes were properly withheld.

089. 2026-08-03 | TX none (Respondent’s Brief A173827 filed 2026-08-03) | Morrissey

Respondent speculated the jury ignored the confession, without a citation, to defeat prejudice.

What occurred. RB 13:3-5, no record cite; omits the 9-3 poll and the jury’s own question as prejudice signals. As I identify the rule from the papers I have read: record-unsupported appellate fact (CRC 8.204(a)(1)(C)).

A jury asking to be instructed on two named statutes was described as not asking about the law.

What occurred. RB 13:17-28 / 14:8-11: the question was “not about the substance or based on confusion of the law itself but on whether they should consider the Vehicle Code sections alleged in the Complaint.”

8 trial court ever refused to give CACI 705, 707, or 710”; plaintiff proposed 152 instructions and

17 note 1 denies the motion to disregard “as unnecessary” and states that unsupported factual asser-
18 tions in respondent’s brief are disregarded (Tanguilig). The opinion does not cite CCP 647, Lund,

Confronted with the lie about receiving the police evidence, the new defense firm did not deny it; it claimed the lie was privileged.

What occurred. Responding to the FAC's statement that PSA told the court the materials were "news to me" when the defense had possessed them, the 801 MPA says: "Again, this is protected conduct . . . the Anti-SLAPP statute bars this type of allegation, in kind," and "even if those 'misrepresentations' were described, it would not matter, as the statements would clearly fall within the" litigation privilege. As I identify the rule from the papers I have read: omission of controlling authority (CRPC 3.3(a)(2); Bus. & Prof. Code 6068(d)); false or misleading statement to a tribunal, or failure to correct one (CRPC 3.3; Bus. & Prof. Code 6068(d)); anti-SLAPP used without the required step-one / 425.17 gateway analysis; extrinsic fraud / fraud on the court as pleaded (Kulchar; Modnick).

Confronted with the empty investigation file, the insurer admitted it never got the evidence and called the file complete anyway.

What occurred. The 802 anti-SLAPP MPA concedes non-obtainment before the February 25, 2021 letter while asserting the investigation reviewed available evidence. As I identify the rule from the papers I have read: investigation / settlement standard of Ins. 20 wrong primary right and wrong defendant for 391(b)(2); the PI judgment not “finally determined”
21 while A173827 was pending; volume adjectives substituted for Morton’s flagrant-abuse standard;
22 RFJN Ex. F mis-cited as the July 1 order; “391(d)” cited for a definition found in 391(b); the FAC

25 relitigation, after final determination, against the same defendant of the same cause or issues. That
26 element is missing (item 130A). A motion that seeks a statewide prefiling order on a missing

4 Counsel branded the injured party vexatious for suing the insurer over an empty investigation file,
5 which is not a second suit against the driver on the collision.

6 **What occurred.** There has never been a lawsuit by this plaintiff against CSAA Insurance Ex-
7 change (or against Porter Scott's 801/802 clients) on the same primary right that was finally deter-
8 mined against him. CGC-21-594102 was a vehicle-negligence action against Subhi Abdelhalim.
9 The judgment, if any, ran against that driver, not against CSAA, and was on appeal in A173827
10 when the 391 motion was filed. CGC-25-631802 is a claims-handling / empty-file action against
11 the insurer. CGC-25-631801 is an equity / fraud-on-the-court action. Shared facts (the 911 call, the
12 BWC, the denial letter) do not merge those primary rights. (Crowley v. Katleman (1994) 8 Cal.4th
13 666, 681-682; Mycogen Corp. v. Monsanto Co. (2002) 28 Cal.4th 888, 904.) CCP 391(b)(2) there-
14 fore had no merits: wrong defendant, wrong primary right, no final determination of the insurer
15 claims. As I identify the rule from the papers I have read: A 391(b)(2) filing that cannot identify

12 Position A and Position B were both offered to courts.

13 **What occurred.** Position A: Vehicle Code 22107 / 21804(a) “not part of the evidence ... period”
14 (594102, RT11 7:4-9, defense as beneficiary). Position B: Defense counsel “requested that the
15 definition for ‘highway’ also be included” and Veh. Code 670 and 360 were “submitted to the
16 jury” (PSA opposition, May 12, 2025).

17 **C-5. TX none (paired filings)**

18 Position A and Position B were both offered to courts.

19 **What occurred.** Position A: Plaintiff’s pleaded statutes admissible as Exhibit 500 and argued in
20 closing (594102). Position B: Same statutes may not be stated to the jury as law (594102, RT11).

21 **C-6. TX none (paired filings)**

22 Position A and Position B were both offered to courts.

23 **What occurred.** Position A: “Plaintiff raised no objection to the jury instructions” (PSA, May 12,
24 2025); “invited error” (RB Aug 3, 2026). Position B: Plaintiff moved for mistrial and objected on
25 the record (RT11 pp. 3-4, 10-12); CCP 647 deems refusal excepted to.

1 **C-7. TX none (paired filings)**

2 Position A and Position B were both offered to courts.

3 **What occurred.** Position A: Investigation and duty issues were “fully litigated” and are preclusive
4 (801/802, Porter Scott). Position B: Liability disputed, no turning instruction given, verdict “just
5 as likely” a no-impact finding, duty never specifically instructed (A173827 RB, Morrissey).

6 **C-8. TX none (paired filings)**

7 Position A and Position B were both offered to courts.

8 **What occurred.** Position A: The 2025 misrepresentations were litigation conduct of PSA “not
9 even the conduct of these moving Defendants” CSAA/Carbone/Chambers (801 MPA). Position B:
10 CSAA’s staff counsel (csaa.com) files the respondent’s brief defending the same judgment; CSAA
11 “had no litigation role” (802).

12 **C-9. TX none (paired filings)**

13 Position A and Position B were both offered to courts.

14 **What occurred.** Position A: Unrecorded sidebar silence proves plaintiff waived (A173827). Posi-
15 tion B: Unrecorded sidebar cannot be reconstructed, so plaintiff’s account is an “outright misstate-
16 ment” (PSA, May 12, 2025) and rule 8.137 relief denied.

17 **C-10. TX none (paired filings)**

18 Position A and Position B were both offered to courts.

19 **What occurred.** Position A: The PI judgment is “finally determined” against plaintiff for CCP
20 391(b) (802 motion, July 21, 2026). Position B: The same judgment was on appeal with the RB
21 not yet filed when the motion was drafted; CRC 8.500 review window still open today.

22 **C-11. TX none (paired filings)**

23 Position A and Position B were both offered to courts.

24 **What occurred.** Position A: Plaintiff’s 128.7 safe-harbor notice is “defective ... not a proper
25 motion” so no clock runs (Aug 10, 2026). Position B: Porter Scott’s own threatened 128.7 and

128.5 motions were never served or filed.

C-12. TX none (paired filings)

Position A and Position B were both offered to courts.

What occurred. Position A: Plaintiff's oppositions are "twenty-two (22) opposition papers" proving vexatiousness (391 reply). Position B: Plaintiff's opposition to the refiled fee motions is a "non-opposition" (Sept 8-9 replies).

C-13. TX none (paired filings)

Position A and Position B were both offered to courts.

What occurred. Position A: Plaintiff "was driving in violation of Vehicle Code section 23152 and/or 23153 for which violation(s) plaintiff was convicted" (Chambers Answer, Fifth Affirmative Defense, CT 1:46). Position B: No such arrest, charge, or conviction exists; Civ. Code 3333.4 does not apply to a person who was not driving.

C-14. TX none (paired filings)

Position A and Position B were both offered to courts.

What occurred. Position A: Continuance papers reciting treaters, billing records, and "medical evaluations of Plaintiff" (2023-2024). Position B: MILs 2, 3, 13, 14, 18, 20: plaintiff "failed to provide any" / "failed to produce" medical evidence (Jan-Mar 2025).

C-15. TX none (paired filings)

Position A and Position B were both offered to courts.

What occurred. Position A: Plaintiff is a vexatious litigant under 391(b)(2) for relitigating a finally determined action (802 motion). Position B: No prior finally determined action against CSAA on the claims-handling primary right; the PI judgment ran against Abdelhalim and was on appeal.

C-16. TX none (paired filings)

Position A and Position B were both offered to courts.

1 **What occurred.** Position A: Instructional error is reviewed de novo (RB 6:8-10). Position B: The
2 same brief treats RT11 as a waiver / invited-error record, which a de novo reading of RT11 does
3 not contain.

4 **CLOSING DECLARATION**

5 I, Franciscus Dylan Rosario, declare under penalty of perjury under the laws of the State of Cal-
